

ColorinColorado.org

The ELL resources you've been asking for!

Practical, research-based information on how to help English language learners read, learn, and succeed

When English language learners are placed in a general education classroom, it's a huge challenge for them ... and for you.

How can you teach literacy skills, academic content, and English at the same time?

At AFT, we've been listening, and we now offer you a free Web site that features:

- strategies for student placement and assessment
- best instructional practices for teaching reading and content
- a toolkit on effective outreach to Hispanic parents
- professional development webcasts available around the clock
- monthly e-newsletters, podcasts, and much more!

Find it on www.ColorinColorado.org

A partnership of AFT and the Reading Rockets project of PBS station WETA.

Check it out—it's all completely free!
